College of Fine Arts Summer Program 2022 COVID Notice/Assumption of Risk Form

The College of Fine Arts Summer 2022 programs follow the latest guidelines set by the University of Kentucky EOC and Health Corps - <https://www.uky.edu/coronavirus/campus>

Please read the following carefully to ensure that you understand the risks involved in participating in an in-person program during a global pandemic. These procedures are being outlined to ensure that you understand what you can and cannot do should you get sick while participating with the College of Fine Arts in a summer 2022 program.

College of Fine Arts COVID Safety Protocol

- Physical sanitation of classrooms, studios, and stages is part of daily routines at the College of Fine Arts (CFA), where classes will be held.
- All buildings have hand sanitizer at their entrances, and classrooms and studios are provided with wipes and hand sanitizer as well.
- Entry/Exit points will be clearly labeled for rooms with multiple access points.
- Social distancing requirements and spatial capacities are clearly marked in all rooms.
- The program schedule has been adjusted to allow at least 20 minutes to air out rooms before a different group uses the space.

Participant Expectations

- If you are sick, we discourage you from participating in a program with the College of Fine Arts for the summer 2022.
- We ask that you engage in frequent washing/sanitizing of hands.
- Masks are required while on the University of Kentucky campus both indoors/outdoors and masks may only be removed when eating or drinking or in a room alone.
- We ask that you help to wipe down shared instruments and surfaces frequently.
- Any individual exhibiting any signs of illness should self-isolate and seek appropriate medical attention.
- We highly recommend COVID testing prior to attending any CFA summer program. If you will be staying overnight in one of the University of Kentucky's Residence Halls during your program, you will be required to provide a negative PCP COVID test or show proof of being fully vaccinated.
- We highly encourage having the vaccination.
- If you were to test positive for COVID while on the University of Kentucky campus, you must leave as soon as possible and will be unable to continue in the program. You must inform the facilitator of your summer program of your results to assist the University of Kentucky with contact tracing.
- If you were around a person who tested positive for COVID, (1) you do *not* need to self-isolate if you can show proof of being fully vaccinated; but (2) you must self-isolate for 14 days if you are not vaccinated.

Assumption of Risk. I am aware that, particularly given the current world health situation related to potential exposure to COVID-19 or similar illnesses, any such activity has inherent risks which may result in serious illness, injury, or death. With my electronic signature below, I acknowledge and agree that I am voluntarily assuming and accepting all risks and hazards involved in any such activity, including, but not limited to, illness, injury, or death.
