Tenure-Track and Lecturer Faculty Positions

Faculty may be paid up to 10% of their annual nine (9) month base salary. The Summer School cap is $5,000 per session for four (4) and three (3) credit hour courses, and compensation will be allocated on a per student basis. The cap will be prorated for two (2) credit courses.

Faculty on 12-month appointments will not be paid for teaching summer courses.

Part-Time Instructors (PTIs)

PTIs may be paid at a rate equal to fall and spring semesters, based on the amount approved by the Provost. These rates are determined by credit hours taught and/or years of experience. The rate should be prorated for two (2) credit hour courses.

Financial Impact

Courses must generate enough tuition return to cover all summer expenses. When estimating needed tuition return, units should consider online and campus classes separately, as the rate of tuition allocation differs.
