In order to increase marketability in higher education and be prepared to meet the challenges of teaching voice in the 21st Century, the Graduate Certificate in Vocal Pedagogy is intended primarily for those individuals who hold a undergraduate or graduate degree in vocal performance, music education, communication disorders and/or choral conducting looking to increase their knowledge and understanding of the singing voice. Many new openings in higher education look favorably toward those candidates with secondary areas of expertise especially pedagogical training. This certificate could also be pursued concurrently with the regular MM and DMA degree program of the School of Music. The certificate requires completion of 15 credit hours of coursework.
